The **Chamber of Labour (AK)** is an integral part of the Austrian political system. One of its major tasks is to represent and promote the social, economic, professional and cultural interests of workers and employees. Apart from this, the Chamber supports trade unions and works councils and works jointly with them. The Chamber offers expertise in divergent fields (like economics, social policy, justice, education and consumer protection) as well as advisory service and legal protection for its members. It is also involved in research into work-related matters. The Research Network **SOZNET** includes University and Non-University Social Research institutions and aims to strengthen Austrian labour research through greater cooperation and networking. **SOZNET-AK** is a cooperation with the Chamber of Labour Vienna, which promotes the exchange of knowledge and experience of social science research and the Vienna Chamber of Labour. **FORBA** has the coordinating role in this cooperation.
